

INVENT THE CHANGE YOU WISH TO SEE IN THE WORLD

JOIN US!!

InventEURs is an European project (Erasmus+) created for the **purpose of adapting and improving a project that already exists, Inventors4Change**, which has been promoting connections between underprivileged children in Spain and India and encouraging them **to become agents of change in their communities** with the help of collaborative digital storytelling. Under the scope of InventEURs, newly arrived migrant **children of disadvantaged schools in Europe will be interconnected among them** and with children from other schools, and mixed virtual teams will **co-create digital projects that revolve around global issues**.

Co-funded by the
Erasmus+ Programme
of the European Union

PARTNERS

London
South Bank
University

Istituto Istruzione
Superiore "G. Giovagnoli"

OBJECTIVES

- 1 **Foster social inclusion**, equity and **Global Citizenship Education** in disadvantaged schools in Europe (with particular emphasis on migrant children).
- 2 **Promote intercultural virtual exchanges** and **collaborative digital storytelling** to foster mutual understanding and respect among children and young people with different ethnic or religious backgrounds.
- 3 **Promote critical thinking** and **digital media literacy** among children and teachers by using **computational thinking** and cutting edge Creative Learning Technologies (like Scratch).
