

# INVENTEURS

## CHANGEMAKER EDUCATION FOR THE 21ST CENTURY

InventEURs is a European Erasmus+ project that aims to adapt and upscale a previous initiative, **Inventors4Change**, which has been **promoting connections** among **underprivileged children** in Spain, India and Colombia, and encouraging them to become **agents of change in their communities** with the help of **collaborative digital storytelling** and global citizenship education. Under the scope of InventEURs, **newly arrived migrant children** of multicultural schools in Europe **get connected** among them and **mixed virtual teams** investigate a social topic, perform virtual exchanges and **co-create digital stories** by using cutting edge technologies.

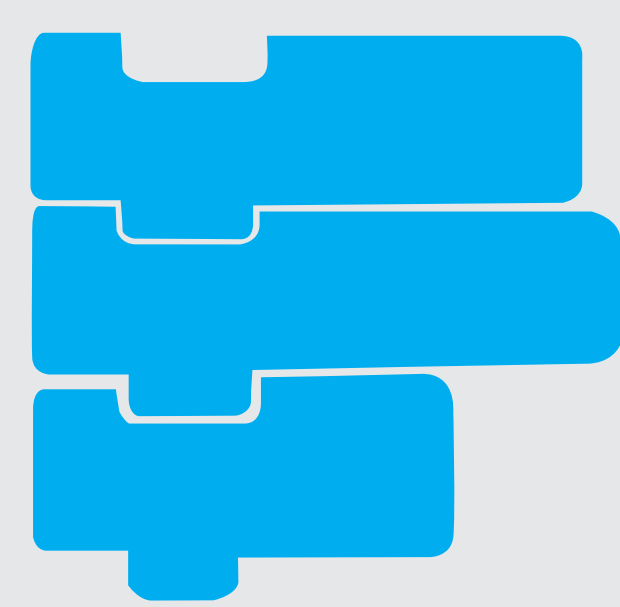

### OBJECTIVES

Foster social inclusion, equity and Global Citizenship Education in multicultural schools in Europe (with particular emphasis on migrant children).

Promote intercultural virtual exchanges and collaborative digital storytelling to foster mutual understanding and respect among children and young people with different ethnic or religious backgrounds.

Promote critical thinking and digital media literacy among children and teachers by using computational thinking and cutting edge Creative Learning Technologies (like Scratch).

## GET INVOLVED AND JOIN US!!

### GLOBALCHANGEMAKERS

A co-creation platform designed to connect teachers globally and allow their classes to collaborate in the creation of digital stories.  
**globalchangemakers.eu**

### MOOC

A massive open online course on *Global Education: Collaboration, Creativity and Social Inclusion*.
